

Hospitality Career and Business Recommendation

NAME _____ | DATE _____ | PERIOD _____

Scenario

Jordan enjoys planning experiences, wants a route that can lead to paid work, and may want to run a small business later. Jordan is willing to work some evenings and weekends but wants to compare preparation carefully before choosing.

Use the Hospitality Career Evidence Guide and your work from this week. Any of the three careers may be recommended when the evidence and tradeoff fit the scenario.

PART 1: COMPARE BEFORE CHOOSING

Highest May 2024 U.S. median in this set: _____

Career with the most projected annual openings: _____

Career with a bachelor's degree as the typical entry education: _____

One career that can use a high school diploma plus substantial experience: _____

One schedule or work-condition tradeoff Jordan should consider:

PART 2: PLAN THE RECOMMENDATION

Career I recommend: _____

One matching task: _____

One pay, preparation, growth, or openings fact: _____

One small-business opportunity connected to the career: _____

One realistic limitation or risk: _____

Part 3: Write the recommendation

Write five to seven sentences. Your response must:

- 1. recommend one career;
- 2. connect one career task to Jordan;
- 3. cite one number with its year, geography, and measure;
- 4. explain one preparation or schedule tradeoff;
- 5. name one entrepreneurial opportunity and what the owner sells;
- 6. connect to a current Irving ISD option when the evidence supports it.

SELF-CHECK

- ☐ I compared all three careers before choosing.
- ☐ I did not call a national median “DFW starting pay.”
- ☐ I explained the tradeoff instead of listing only benefits.
- ☐ I described entrepreneurship as operating a business, not only having an idea.
- ☐ My local connection is an opportunity to investigate, not a guarantee.
