Help Desk Simulator (MakeCode Day 1)

IRVING Independent School District | CAREER & COLLEGE EXPLORATIONS

BLOCK **1.4.3** | NAME _____ | DATE _____ | PERIOD _____ | TEK d(4)(B)

DECISION TREE

My role today: **Help Desk Technician**. My Day 3 scenario card:

Step 1: When the user calls, what is the VERY FIRST troubleshooting step you tell them to try? (Use your micro:bit program.)

Step 2: Why is that step FIRST and not a later step? One sentence:

Step 3: Branch the next move based on the result:

IF the user says the first step FIXED the problem, what do I do next?

IF the user says the first step did NOT fix it, what do I do next?
