Access, Privacy, and Missing-Evidence Boundary

Equivalent communicated routes include live whole-group, small group, teacher conference, recorded audio/video, AAC, or an authorized multimodal alternative. Accent, eye contact, disability, camera use, clothing/style, visual polish, public confidence, and English mechanics are not scored unless meaning is unclear.

Missing an old workbook page, family interview, platform login, or partner does not automatically lower mastery. Students use the documented recovery route and current evidence. No private profile screenshot, contact data, family finances, health/immigration information, or unsupported pathway guarantee.
