MINI-CASE

A DFW city council discovers that a neighborhood's drinking water has SMALL amounts of lead in it. They need to hire ONE environmental professional to start fixing the problem this week.

1 Which environmental career from today (Environmental Engineer, Sustainability Consultant, Water Treatment Specialist, Renewable Energy Technician) fits THIS problem BEST? My pick:

2 Use one fact about the career (education, problem it solves, daily task) from your Hat Notes to back the pick:

3 Connect ONE NASA Climate Kids topic to THIS problem (example: pollution in water, greenhouse effect, melting ice caps): My topic: . Connection in one sentence:
