

MINI-CASE

07 / 10

You are the triage nurse. A patient says: "My ankle has been sore since Saturday. I was at my cousin's house, we had barbecue, and I went down the porch steps wrong. It swelled up that night. I can put weight on it but it hurts on the outside. I have not taken anything for it."

1 Write ONE **essential** detail and say why it is essential. Essential detail: Why it matters:

2 Write ONE **background** detail from the same account.

3 Write ONE clarifying question you would ask this patient. It must ask for something the patient did NOT already say.

4 Name ONE career outside healthcare that needs this same listening skill, and say when they would use it. Career: When:
