EXIT TICKET

A&C Cluster Tour + Safety Supervisor

IRVING Independent School District | CAREER & COLLEGE EXPLORATIONS

BLOCK **5.1.1** | NAME _____ | DATE _____ | PERIOD _____ | TEK d(1)(B) · d(1)(C)

MINI-CASE

A new downtown Dallas high-rise construction project just had a minor crane incident at 40 feet above the street. No one was injured but the city wants a safety plan upgrade.

1 Which A&C career (Safety Supervisor, Architect, Construction Manager, Drafter, Inspector) would LEAD the safety plan upgrade, and why? My pick: Why:

2 Which TWO hazards from my Safety Supervisor underwater plan WOULD still matter for this high-rise scenario? - Hazard 1: - Hazard 2:

3 Name ONE NEW hazard that only applies to a high-rise site (NOT underwater): Submit your Safety Supervisor plan with this ticket.
