

Career Research Worksheet (Worked Example)

NAME _____ DATE _____ PERIOD _____

Read the example first. This is how one student filled in the six parts. Then fill in the same six parts for your own career at the bottom.

EXAMPLE: VETERINARIAN

PART	WHAT THE STUDENT WROTE
1. Name of Career	Veterinarian
2. What Interests You?	I have taken care of animals my whole life. I want to know how to help a pet that is sick and cannot tell you what hurts.
3. Brief Job Description	A veterinarian is an animal doctor. They examine pets and farm animals, give shots, take x-rays, do surgery, and explain the care plan to the owner.
4. Education / Training Needed	4 years of college, then 4 more years of veterinary school. You also need a state license to work.
5. Salary Evidence	\$125,510 median annual wage · United States · U.S. Bureau of Labor Statistics Occupational Outlook Handbook · May 2024. This is a national median, not local or starting pay.
6. What Tools, Equipment, or Skills are Needed for This Career?	Stethoscope, x-ray machine, surgery tools, microscope, and a computer for animal records. Skills: calm hands with a scared animal, strong science and math, and clear talking with a worried owner.

NOW YOU TRY

1. Name of Career

2. What Interests You?

3. Brief Job Description

4. Education / Training Needed

5. Salary Evidence

Include the number or range, salary type, geography, source, and data year.

6. What Tools, Equipment, or Skills are Needed for This Career?
