

Learning styles

Xello quiz, then the lesson.

College and Career Exploration · Week 3 · Day 5

Bring your Chromebook. Turn in your Major 1 packet if you have not.

As you enter: A, B, or C?

Three lists of study habits
(Xello lesson guide)

Which one is you?

Read all three. Pick the one you actually do when you have to learn something new, not the one that sounds smart.

Write the letter and one example from your own life in your notebook.

Say it like this

I am mostly _____. Last time I learned something new, I _____.

Today you will

- 1 Take the Xello Learning Style quiz (20 minutes, Voice 0).
- 2 Do the Learning styles lesson (30 minutes).
- 3 Pick one learning method and connect it to a real school task on the Method-to-Task sheet.

Your result is not a grade and does not measure ability. It is a starting point for choosing a method.

Open Xello

ClassLink → Xello → About Me → Learning Style

**Xello Home menu
(see the Day 5 Canvas page)**

Xello's Home menu. About Me is the next tab to the right.

- 1** Open ClassLink and click the Xello tile.
- 2** Click About Me at the top.
- 3** Click Learning Style and start the quiz.
- 4** Stuck for two minutes? Raise a hand and start the Method-to-Task sheet while you wait.

Learning Style quiz

20 minutes · Voice 0 · Private

Answer honestly

There are no right answers. Pick what you actually do, not what you wish you did.

Read each choice fully before you click.

When you finish, read your result page once, then close the lid halfway and wait.

Timer

20:00 on the board.

Done early? Reread your result and find one line you disagree with.

Devices flat while directions are given. Voice 0 until the timer ends.

Learning styles lesson

30 minutes · Dashboard → View all lessons → Learning styles

- 1 Click Dashboard, then View all lessons.
- 2 Open Learning styles and work through it in order.
- 3 When the lesson asks you to talk to a partner, that is Voice 1 for that part only.
- 4 Finish the lesson's own reflection question inside Xello.

Three methods

Visual: diagrams, models, color coding, written steps

Auditory: read aloud, explain to a partner, record and replay

Tactile: build, sort, trace, act out, practice by doing

30:00 on the board. Voice 0 except the partner part.

Talk, then write

Method-to-Task Connection · last 8 minutes of the lesson block

Open the Method-to-Task Connection

Talk

Voice 1, 60 seconds each. Tell your partner one method from the chart and one real task this week you will try it on.

Write

Voice 0. Fill in the frame on the sheet. Name the task and how you will know it helped.

Say it like this

A method I can test is _____.

I will use it when I _____.

I will know it helped if _____.

Words you will need

visual · auditory · tactile · method · obstacle · strategy

Before you go

- 1 Learning Style quiz finished in Xello.
- 2 Learning styles lesson finished, reflection answered.
- 3 Method-to-Task sheet submitted.

Next week: Tech Support careers. Bring your Find Your Future workbook.
