

1st Six Weeks Capstone Evidence Rubric

TEACHER USE

1sw/wk5-cybersecurity-it

Score one compact evidence packet. Fabrication method and platform access do not affect the score.

Student: _____ Period: _____ Total: _____ / 16 Date: _____

CRITERION	4 - MASTERS	3 - MEETS	2 - APPROACHES	1 - NEEDS IMPROVEMENT
Bootcamp plan	Names one audience and need; two measurable goals, activity, place/time, and accurate safety action all fit together.	Plan is complete; one choice is general or only partly connected.	Several parts are present, but the audience, goals, or activity do not align.	Evidence is minimal, unsafe, or too incomplete to evaluate.
Flyer and integrity	Original/credited words and visuals clearly show the audience, topic, time/place, and safe sign-up method.	Required flyer information is present; one part is hard to find or general.	Two required parts are missing, or reused work is not credited.	Flyer is missing, mostly copied, or includes unsafe personal contact information.
Postsecondary goal and artifact	Original logo/symbol represents a specific goal and names an Irving ISD course, program, or experience to investigate.	Specific goal and original artifact are clear; pathway connection is general.	Goal or artifact is general, but a connection can be identified.	Goal/artifact is missing or copied with no explanation.
Career reflection	Uses specific evidence from the six weeks to explain a changed idea, a current interest decision, and a next step.	Answers all prompts with at least one specific example.	Answers are partly complete or mostly general.	Evidence is minimal or too incomplete to evaluate.

Gradebook Conversion

Convert the score to a percentage when entering the major grade:

SCORE	PERCENT	DISTRICT BAND
16	100	Masters
15	94	Masters
14	88	Meets
13	81	Meets
12	75	Approaches

SCORE	PERCENT	DISTRICT BAND
11	69	Needs Improvement
10	63	Needs Improvement
9 or below	Below 60	Insufficient evidence / follow campus reassessment practice

Scoring Boundaries

- Paper, Canva, Adobe Express, SVG, PNG, hand-cut card stock, and teacher-selected laser examples score equally.
- Do not score Xello login access, H&L favorites, public speaking, machine operation, or gallery participation.
- A student may decide cybersecurity or IT is not a fit and still earn full credit when the evidence supports the decision.
- Peer feedback is formative. Score the student's own final evidence only.

Reteach Triggers

- **Plan:** name one audience before choosing activities.
- **Integrity:** replace copied content or personal contact details with original/credited content and a fictional or teacher-approved sign-up route.
- **Goal:** complete the goal sentence before opening a design tool.
- **Reflection:** place the Week 0 response beside the update and ask for one specific change.
