

Xello Interests Check and Private Reflection

NAME _____ DATE _____ PERIOD _____

Brainstorm current interests

The Grade 7/original course spine assigns the **Interests** lesson. Choose interests that fit you now. You do not need to share private details with classmates.

Use Xello to select five interests inside the assigned lesson. This page is a private planning check and paper fallback, not a second copy of the Xello form.

INTEREST IDEA	ACTIVITY THAT SHOWS IT	SUSTAINABLE-ENGINEERING TASK IT MAY CONNECT TO

Complete the Interests lesson in Xello

1. Open Xello from district single sign-on, then open the assigned **Interests** lesson.
2. Review the examples and select five interests that fit now.
3. Complete the reflection prompts. Your teacher checks the report; do not post a profile screenshot.

Private reflection

Choose one current interest. How does it connect to a task from environmental engineering, agricultural engineering, wind energy, solar energy, or another fixed career in the week guide? What task would you still want to investigate?

COMPLETION AND CATCH-UP CHECK

- ☐ I selected five interests inside the assigned Xello lesson.
- ☐ I connected one interest to a fixed sustainable-engineering career task.
- ☐ I completed the private reflection.
- ☐ If Xello was unavailable, I scheduled supervised catch-up. Paper planning does not replace the assigned lesson.
