

Career Research Worksheet (Welder Example)

NAME _____ DATE _____ PERIOD _____

Read the example first. This is how one student filled in the six parts for a Manufacturing career. Then fill in the same six parts for your own career at the bottom.

EXAMPLE: WELDER

PART	WHAT THE STUDENT WROTE
1. Name of Career	Welder
2. What Interests You?	I like fixing and building things with my hands. I want a job where I can point at what I made at the end of the day.
3. Brief Job Description	A welder joins pieces of metal using heat. Welders read a drawing, cut and line up the metal, melt the joint, then check the weld for cracks.
4. Education / Training Needed	High school diploma or GED, plus a welding program at a technical school or community college. Many welders also earn a welding certification.
5. Average Salary	About \$48,000 a year in the United States.
6. What Tools, Equipment, or Skills are Needed for This Career?	Welding machine and torch, welding helmet with a dark shield, fire resistant gloves and jacket, clamps, grinder, and a tape measure. Skills: steady hands, reading a blueprint, careful measuring, and always thinking about safety.

NOW YOU TRY

1. Name of Career

2. What Interests You?

3. Brief Job Description

4. Education / Training Needed

5. Average Salary

6. What Tools, Equipment, or Skills are Needed for This Career?
