Four-Criterion Rubric

CRITERION	4 — MASTERS	3 — MEETS	2 — APPROACHES	1 — NEEDS IMPROVEMENT	0 — INSUFFICIENT EVIDENCE
Career and source accuracy	Career, local pathway boundary, source/date, and limitation are accurate	Accurate career and source with minor label gap	Usable evidence but incomplete labels or boundary	Major occupation, pathway, or source confusion	Blank, off-topic, or no supported fact
Preparation and posting reasoning	Verified requirement, provider-variable fact, posting evidence, and tradeoff are clearly separated	Mostly accurate comparison with one minor gap	Partial comparison or unsupported jump	Routes or posting fields are substantially confused	Blank or off-topic
Design, testing, and service connection	Specific design choices, tested revision, service value, and two-career transfer use evidence	Clear design/revision/service connection	General connection or one required element missing	Product description with little reasoning	Blank or off-topic
Reflection and next action	Four evidence types support a coherent conclusion, limitation, and specific next action	Complete conclusion with mostly specific evidence	Understandable but missing a major evidence job	Preference stated with little evidence	No usable evidence
