

MINI-CASE

07 / 10

Mateo is in 11th grade at Irving High. He wants to work in a dental office ONE YEAR after graduation. His family can pay for 1 year of training but not 4.

- 1 | Which dental career (Dental Assistant, Dental Hygienist, Dentist, or Orthodontist) fits Mateo's 1-year timeline and budget BEST? My pick:

- 2 | In one sentence, use ONE specific training time OR salary fact from today's career research to back the pick:

- 3 | If Mateo changed his mind and decided to save for 2 years of training, which dental career would suddenly become a BETTER fit, and why? Revised pick: . Why: Submit your career research worksheet and your Cavity Risk Assessment with this ticket.
