

IT Salary Comparison Worksheet

NAME _____ DATE _____ PERIOD _____

Pick three programming or IT careers available in H&L or Xello. Use the exact displayed career title and keep each number attached to its source label.

Career 1 Evidence Record

Exact career title: _____

HQIM localized salary

- Platform: H&L / Xello
- Geography shown: _____
- Measure shown (range, median, or other): _____
- Figure: _____ Date viewed: _____

External national cross-check

- BLS occupation title: _____
- National median: _____ Data year: _____
- Typical entry education: _____
- Job outlook percent and years: _____
- Number of jobs or annual openings: _____

What this worker does (one clear sentence):

One DFW employer or industry that may hire this work and the source:

Keep the labels. A localized range and a national median are different measures. Do not replace one with the other.

Career 2 Evidence Record

Exact career title: _____

HQIM localized salary

- Platform: H&L / Xello

- Measure shown (range, median, or other): _____
- Figure: _____ Date viewed: _____

External national cross-check

- BLS occupation title: _____
- National median: _____ Data year: _____
- Typical entry education: _____
- Job outlook percent and years: _____
- Number of jobs or annual openings: _____

What this worker does (one clear sentence):

One DFW employer or industry that may hire this work and the source:

Source difference I notice:

Career 3 Evidence Record

Exact career title: _____

HQIM localized salary

- Platform: H&L / Xello
- Geography shown: _____
- Measure shown (range, median, or other): _____
- Figure: _____ Date viewed: _____

External national cross-check

- BLS occupation title: _____
- National median: _____ Data year: _____
- Typical entry education: _____
- Job outlook percent and years: _____
- Number of jobs or annual openings: _____

What this worker does (one clear sentence):

One DFW employer or industry that may hire this work and the source:

Source difference I notice:

Compare the Three Careers

1. Which career has the highest HQIM localized salary figure? Name the figure and its measure.

2. Which career has the fastest BLS job growth? Name the percent and projection years.

3. What preparation difference matters most to your decision?

4. Which career would you recommend to someone who shares your priorities? Use at least two facts from the records.

IT Career Fit Reflection (complete on Day 5)

1. My Xello Personality Style result included _____. One example is

2. The IT pathway or career I reviewed was _____. It fits / does not fit / might fit me because

3. One salary, preparation, task, or demand fact that changed or confirmed my thinking was

4. **Final call:** Can I see myself working in IT? Yes, no, or not sure. Use evidence from this week.
