

Sustainable Engineering Trends Evaluation

NAME _____ DATE _____ PERIOD _____

Part 1: Compare two trends

Trend A: _____

One task or career it changes:

One dated or sourced fact:

One limit or tradeoff:

Trend B: _____

One task or career it changes:

One dated or sourced fact:

One limit or tradeoff:

COMPARE THE SIZE OR TYPE OF CHANGE

Which trend seems likely to change more daily work? Use evidence, not only your preference.

Part 2: Recommend what a student should investigate next

Choose one career or pathway connected to the two trends. Write 5-7 sentences.

Your response must include:

- the career or pathway;
- two facts from the evidence guide;
- how the trend changes a task or skill;
- one preparation difference or local pathway connection;
- one limit in the evidence; and
- a clear recommendation to investigate or not investigate further.

SOURCE AND MEASURE CHECK

- ☐ I named the source or measure with each number.
- ☐ I did not call a national median “DFW starting pay.”
- ☐ I did not treat growth as a guarantee.
- ☐ I explained a changed task or skill.
- ☐ I included one evidence limit.

ONE-SENTENCE REVISION NOTE

The change that made my evaluation stronger was:
