

Three-Career Comparison and Budget Portfolio

NAME _____

DATE _____

PERIOD _____

Same-Basis Evidence Rule and Fallback

Preferred: three Xello careers from one interest area, using the same displayed geography and wage measure. Record the measure and date for all three.

Fixed fallback, May 2024 U.S. medians:

CAREER	U.S. MEDIAN	TYPICAL PREPARATION SUMMARY
Architects	\$96,690	Bachelor's typical; registration route includes education, documented experience, and exam, with jurisdiction differences
Civil Engineers	\$99,590	Bachelor's typical; licensure matters for some responsibilities and varies by role/state
Electricians	\$62,350	High-school diploma typical; most learn through apprenticeship; Texas license boundary

Do not mix local, national, starting, median, average, range, or experienced figures in one ranked salary column unless they remain separate and labeled.

Chosen evidence basis:

Career 1 Evidence

Career: _____ Interest area: _____

Source/date/geography/measure:

Salary evidence: _____

Preparation evidence:

Personal-fit evidence:

One limitation:

Career 2 Evidence

Career: _____ Interest area: _____

Source/date/geography/measure:

Salary evidence: _____

Preparation evidence:

Personal-fit evidence:

One limitation:

Career 3 Evidence

Career: _____ Interest area: _____

Source/date/geography/measure:

Salary evidence: _____

Preparation evidence:

Personal-fit evidence:

One limitation:

Publish the Weights Before Scoring

Assign a total of 100 points across the factors before choosing a winner.

Salary evidence: _____ / 100

Preparation time/requirements: _____ / 100

Personal fit: _____ / 100

My additional factor: _____ Weight: _____ / 100

Total: 100 / 100

Why each weight matters to my current decision:

1. Salary:

2. Preparation:

3. Personal fit:

4. Additional factor:

How I will score each career consistently:

My result and why the score is a preference—not proof of the objectively best career:

Portfolio Summary and Revised Decision

Use Days 1–4 as references when available. The graded submission is this Day 5 portfolio; prior formative packets do not need to be attached again.

Annual before-tax target used: \$ _____

CAREER	ANNUAL SALARY ON MY CHOSEN BASIS	SALARY MINUS ANNUAL TARGET
Career 1	\$ _____	\$ _____
Career 2	\$ _____	\$ _____
Career 3	\$ _____	\$ _____

Career selected after the comparison: _____

Two evidence details supporting the selection:

1.

2.

My revised monthly budget result from the planning scenario: \$ _____ surplus / shortage / even

One budget or source-label correction I made:

One honest limitation that remains:
