

Emerging Tech Research Template

NAME _____

DATE _____

PERIOD _____

One career per sheet. Use the BLS Occupational Outlook Handbook and the teacher-approved local employer source. Xello may be used for local salary information when the career is available. Fill in all eight parts. You use this same sheet again on Day 5 for your one-minute pitch, so write it so you can read it out loud.

1. Career Name

2. What does this person do? Write 3 to 5 sentences in your own words.

3. Education needed. Is it a degree, a certification, or both?

4. Median pay (BLS). Write the national number and the year shown.

5. Job growth rate (BLS). Write the percent and the years it covers.

6. Source match. Circle one: **EXACT BLS OCCUPATION** / **CLOSEST BLS PROXY**

If you used a proxy, name the broader occupation: _____

7. Why is this career considered "emerging"? Name a technology, demand change, or changed work task. A missing BLS title alone is not proof.

8. One DFW company that hires for this role. Use the teacher-approved company page or current job posting.

☐ I can explain which facts describe my exact career and which facts come from a broader proxy occupation.
