

Private Xello Biases Reflection

NAME _____ DATE _____ PERIOD _____

Keep this reflection private

Complete **Biases and career choices** in Xello first. You may use an assumption from media, school, or general culture. You do **not** have to disclose your identity, family income, disability, or a personal experience with discrimination.

1. BEFORE THE LESSON

What is one assumption people may make about who works in plant, agriculture, engineering, or outdoor careers—or what that work is like?

2. AFTER THE LESSON

Name one fact from the Plant-Tech Evidence Guide or a Xello career profile that challenges, complicates, or confirms that assumption.

3. A FAIR NEXT MOVE

What is one responsible way to test a career assumption before ruling a career in or out? Explain why the strategy is useful.

PRIVATE SUBMISSION CHECK

- ☐ I completed the Xello lesson or my supervised catch-up is recorded.
- ☐ I used a career fact, not a stereotype, as evidence.
- ☐ I did not include private information I do not want to share.
- ☐ I submitted this page or typed the same response in the private Canvas assignment.
