

Mid-Year Career Blueprint Rubric

TEACHER USE

4sw/wk1-career-planning

Recommended major evidence packet: 16 points

Score the profile audit, career iceberg or goal, career deep dive, pathway decision, and Mid-Year Career Blueprint together. Platform access, artistic quality, public speaking, and whether the student's choice changed do not determine the score.

CRITERION	MASTERS - 4	MEETS - 3	APPROACHES - 2	NEEDS IMPROVEMENT - 1	NO EVIDENCE - 0
Assessment analysis	Compares an earlier result with at least two specific current pieces of evidence and explains agreement or change	Uses an earlier result and two current pieces of evidence; explanation is mostly clear	Names earlier and current evidence with a general comparison	Lists results without analysis	Blank or off topic
Career evidence	Uses accurate work, preparation, and correctly labeled pay or outlook evidence; names a meaningful trade-off	Uses accurate work and preparation evidence plus one labeled pay or outlook fact	Uses two career facts, but one label or explanation is incomplete	Career preference with little usable evidence	Blank or inaccurate
Pathway and experience decision	Uses a current district source, exact pathway/campus, one course or requirement question, and a relevant CTSO/experience benefit	Uses current pathway/campus evidence and a relevant experience or next question	Names a pathway with partial current-source or experience evidence	Names a general field or unsupported campus	Blank or invented
Blueprint reasoning and next action	Connects profile, career, and pathway evidence; includes a trade-off and a specific measurable next action	Connects all three evidence areas with a reasonable next action	Plan is understandable but one evidence area or action is thin	Plan is mostly unsupported or vague	Blank or off topic

Score record

CRITERION	POINTS
Assessment analysis	/4
Career evidence	/4
Pathway and experience decision	/4
Blueprint reasoning and next action	/4
Total	/16

Performance-band conversion

RAW POINTS	PERCENT RANGE	BAND
15-16	90-100	Masters
13-14	80-89	Meets
12	70-79	Approaches
10-11	60-69	Needs Improvement
0-9	Below 60	Follow campus or district policy

Scoring boundaries

- Score the evidence chain and decision quality, not whether the student keeps the same career goal.
- H&L, Xello, workbook, prior class artifacts, and teacher-provided records are valid inputs when the student identifies the source.
- Do not require a screenshot of private profile results.
- National medians are not local or starting pay. A missing source label lowers Career evidence.
- Local chapter, transportation, admission, and course availability must be phrased as current evidence or a question, not a promise.
- English mechanics do not lower the score unless meaning cannot be understood.
- Students may revise according to the teacher's normal major-assignment practice.
