

# Individual High School and Career Plan

NAME \_\_\_\_\_ DATE \_\_\_\_\_ PERIOD \_\_\_\_\_

## This is my current plan

Plans change when evidence changes. This plan should be specific enough to guide a conversation and flexible enough to revise with a counselor.

### 1. Career direction and self-evidence

Current career or field direction: \_\_\_\_\_

Two pieces of self-evidence that support it:

1.

---

---

2.

---

---

One reason this direction may change:

---

---

### 2. High school pathway

Current pathway or program: \_\_\_\_\_

Campus or location, if verified: \_\_\_\_\_

Why this pathway supports the goal:

---

---

---

---

3. High school course sequence

| GRADE | ONE REQUIRED ACADEMIC COURSE | CTE / PATHWAY COURSE OR VERIFIED PLANNING NOTE | WHY IT MATTERS |
|-------|------------------------------|------------------------------------------------|----------------|
| 9     |                              |                                                |                |
| 10    |                              |                                                |                |
| 11    |                              |                                                |                |
| 12    |                              |                                                |                |

One prerequisite chain:

One course or schedule fact a counselor must verify:

4. After high school

Common education or training route for the career:

---

---

---

License, certification, degree, apprenticeship, military training, or other requirement when applicable:

---

---

---

One college-credit or advanced opportunity I may consider in high school:

---

---

---

Source and access date:

---

---

5. Experience and support

One experience I will pursue or build:

---

---

---

One person or resource that can help:

---

---

6. Action plan

First action within seven days:

---

---

---

Action before the next counseling meeting:

---

---

---

Action during Grade 9:

---

---

---

7. Backup and revision rule

Backup pathway, course, or experience that protects the same goal:

---

---

---

Evidence that would make me revise this plan:

---

---

---

---

One question I will bring to a counselor:

---

---

---
