

Drone Systems Evidence Brief

NAME _____ DATE _____ PERIOD _____

Part 1. User need and design response

Mission user and need:

Component or system response:

Constraint or tradeoff and why it matters:

Part 2. Occupation and preparation

Exact occupation title: _____

How this occupation contributes to the system:

Typical preparation and source/date:

Part 107 connection, if the described operation actually uses it:

Part 2 continued. Classification evidence

High skill? ☐ Yes ☐ No. Preparation/duty evidence:

High wage? ☐ Yes ☐ No. Median, geography, date, and comparison:

High demand? ☐ Yes ☐ No. Growth, period, and annual openings:

One limitation of this classification:

Part 3. Rule and safety decision

Scenario type: ☐ Indoor only ☐ Outdoor educational ☐ Part 107 work

Rule or operating route to apply or verify:

Current source or authorized person needed before action:

Campus/model safety check that still matters:

Part 4. Test, revise, and transfer

One test result:

Revision supported by the result:

Evidence that would show whether the revision worked:

Transferable skill: _____

Occupation 1 and connection:

Occupation 2 and connection:

Self-score and revise

CRITERION	MY LEVEL, 0-4	EVIDENCE I CAN POINT TO
Design reasoning		
Occupation/classification evidence		
Rule and safety accuracy		
Test-based revision and transfer		

Weakest section: _____

Revision I made:

Evidence audit

Three source or rule labels I kept accurate:

1.
-
2.
-
3.
-

Two occupations connected by one skill: _____

One unsupported claim I removed or corrected:

Private submission: ☐ Canvas text ☐ Upload ☐ Media ☐ Paper
