

Transferable Skills Evidence

NAME _____ DATE _____ PERIOD _____

Six fixed career-task cards

CAREER	ONE TASK FROM THIS COURSE
Software developer	Tests a change, explains an issue, and coordinates a release
Nurse	Verifies supplied information, communicates a handoff, and works with a care team
Lawyer	Reviews evidence, explains a position, and prepares with a legal team
Pilot	Uses checklists, evaluates supplied flight information, and communicates with authorized personnel
Drone systems technician	Tests a system, records results, and explains a revision
Automotive service technician	Follows inspection steps, documents findings, and explains supported next steps

The cards provide classroom examples, not a complete job description.

WHAT COUNTS AS PROOF?

Claim only: "All careers need attention to detail."

Evidence: "A software developer checks a code change; an automotive technician follows an inspection checklist."

Why the second statement is stronger:

Skill 1: Analytical reasoning

Careers supported by the cards: ☐ Software developer ☐ Nurse ☐ Lawyer ☐ Pilot ☐ Drone systems technician ☐
Automotive service technician

Career A and task evidence:

Career B and different task evidence:

What the skill behavior has in common:

What changes because the technical setting is different:

Skill 2: Communication

Careers supported: ☐ Software developer ☐ Nurse ☐ Lawyer ☐ Pilot ☐ Drone systems technician ☐ Automotive service technician

Two career/task examples:

Common behavior and technical difference:

Skill 3: Attention to detail

Careers supported: ☐ Software developer ☐ Nurse ☐ Lawyer ☐ Pilot ☐ Drone systems technician ☐ Automotive service technician

Career A and task evidence:

Career B and different task evidence:

Common behavior:

Technical difference:

Skill 4: Teamwork

Careers supported: ☐ Software developer ☐ Nurse ☐ Lawyer ☐ Pilot ☐ Drone systems technician ☐ Automotive service technician

Two career/task examples:

Common behavior and technical difference:

Build a pattern claim

Skill with the strongest six-career evidence:

Career/task example 1:

Career/task example 2:

Career/task example 3:

Claim about why this skill transfers:

One limit of my claim:

Independent transfer check

Choose two careers from different clusters.

Career 1: _____

Task that uses the skill:

Career 2: _____

Different task that uses the same skill:

Transferable skill: _____

Common behavior across both tasks:

Why technical skill still matters in each setting:
