

Construction Career and Preparation Evidence

NAME _____ | DATE _____ | PERIOD _____

Current Irving Pathway Card

- Public MacArthur label: **Construction**, School of Architecture, Construction and Civil Engineering (ACE)
- 2026–27 coursebook sequence: Principles of Construction → Construction I → Construction II → Practicum in Construction
- Coursebook certification: Autodesk Associate (Certified User) Revit Architecture
- Coursebook CTSO: Technology Student Association (TSA)

The older FYF district page uses different wording. High-school CTE can build evidence and preparation; it does not guarantee admission, a credential, employment, or completion of a postsecondary route.

How the pathway could support—but not complete—one career route:

Fixed Career Cards

FIELD	CARPENTER	CONSTRUCTION MANAGER
Work	Builds, repairs, and installs frameworks and structures	Plans, coordinates, budgets, and supervises construction projects
Typical preparation	High-school diploma; OJT or apprenticeship	Bachelor's degree typical; experience may matter
May 2024 U.S. median	\$59,310	\$106,980
2024–34 growth	4%	9%
Annual openings	74,100	46,800

Construction and Building Inspector: checks construction against codes, ordinances, zoning, and specifications. This occupation is not the same as a Texas Professional Real Estate Inspector. Verify current education, experience, and license boundaries before making a route claim.

Sources accessed August 2026: U.S. Bureau of Labor Statistics; Texas Real Estate Commission.

My Career Evidence Card

Selected role: _____

Two work products or decisions:

1.

2.

Typical preparation and license boundary:

One accurately labeled pay or outlook figure:

One fact the source does **not** prove:

Compare and Decide

Second role: _____

One preparation difference:

One work product passed from one role to another:

My route choice for a fictional student and the tradeoff accepted:

Why this role may or may not fit me:
