

Real-Estate Careers and Texas Boundaries

NAME _____

DATE _____

PERIOD _____

Current Local and Source Boundary

Current Irving ISD public evidence names **Real Estate Marketing** at MacArthur within the **School of Business and Entrepreneurship**. It does not by itself promise admission, transportation, schedule, license completion, exam eligibility, placement, or employment.

For every career, keep these separate:

- occupation and work product;
- common preparation;
- regulator, license, or credential boundary;
- compensation pattern;
- one limitation or question to verify.

One claim I will avoid:

One current source and why it is authoritative:

Real Estate Sales Agent

TREC licenses Sales Agents. An active Sales Agent acts on behalf of a licensed broker and clients. Current requirements include age 18+, 180 classroom hours, application, fingerprint/background review, exam, and broker sponsorship for active practice.

Work product or responsibility:

Preparation/regulator boundary:

Compensation pattern and one missing fact:

Real Estate Broker

Brokers have additional Texas education, experience, and licensing requirements and may manage a real-estate business or sponsor Sales Agents. A Sales Agent is not automatically a Broker.

Work product or responsibility:

Preparation/regulator boundary:

Compensation/business pattern and one missing fact:

Property Appraiser or Assessor

Property appraisers and assessors develop value estimates. Texas appraiser credentials are handled through TALCB, an independent subdivision of TREC. A Sales Agent license is not an appraisal credential.

Work product or responsibility:

Preparation/regulator boundary:

One reason the role must stay separate from Sales Agent:

Property Manager and Career Decision

Property Manager duties vary. TREC states that a license is required for specified paid showing/leasing activities and for a person who controls acceptance or deposit of rent from a resident of a single-family residential unit. Do not claim every property-management job has one identical requirement.

One work product and boundary:

Two careers I compared: _____ and _____

Two important differences:

My current direction and one official-source question:
