PERIOD _____

Design Brief and Career Map

Design a learning space for a third-grade science class. It must help children investigate, talk, make, and explain—not just look interesting.

Three Education and Training careers that could contribute:

CAREER	WHAT THIS PERSON CONTRIBUTES
Teacher	learning goals, instruction, and student support
Instructional coordinator or designer	lesson sequence, resources, and checks for understanding
Curator or museum educator	objects, exhibits, stories, and visitor learning

My space name: _____

The science goal children will learn:

Two careers involved and what each contributes:

Plan the Experience

What students do first:

What students investigate, build, or test:

How students explain what they learned:

One access or safety need and the design response:

Draw the Learning Space

Use the full area. Label the entrance, investigation area, materials, discussion space, and one access or safety feature.

A large, empty rectangular box with a thin black border, intended for a hand-drawn floor plan of a learning space. The box occupies the majority of the page below the instructions.

Persuasive Booking Card

Write for a teacher deciding whether to reserve the space.

Headline:

What students will do:

What students will learn and how the space supports it:

Why this is more than decoration:

Peer feedback—one strength and one specific revision:
