Audience, Action, and Ethical Boundary

A call to action tells an audience what to do next. This is a fictional classroom campaign. Do not create a real ad, account, link, QR code, purchase offer, discount, testimonial, tracking claim, or collection of personal data.

Five CTA approaches: benefit, urgency, curiosity, direct command, and incentive. Urgency and incentives must be truthful; do not invent scarcity, deadlines, savings, guarantees, or popularity.

One difference between grabbing attention and helping someone make an informed choice:

Product A and Product B

A — Local Car Wash: fast service, affordable prices, near a busy road.

CTA 1 + type + audience reason:

CTA 2 + different type + audience reason:

B — Cooking Class: meets weekly, makes five desserts, uses unusual ingredients.

CTA 1 + type + audience reason:

CTA 2 + different type + audience reason:

Product C and Product D

C — After-School Snack Box: weekly delivery, sweet/salty mix, busy-student audience.

CTA 1 + type + audience reason:

CTA 2 + different type + audience reason:

D — Fishing Gear: monthly subscription, hooks/bobbers/worms/line, family audience.

CTA 1 + type + audience reason:

CTA 2 + different type + audience reason:

Select One Product and Plan the Ad

Product and intended audience:

Headline:

Short accurate description:

Selected CTA and type:

Why this wording fits the audience without misleading them:

Ad Mock-Up

Label headline, description, CTA, visual hierarchy, and one access feature. Canva, Adobe Express, and paper are equal.

Test and Revise

What a viewer noticed or understood in three seconds:

One confusing, unsupported, or weak part:
