

Toothbrush Design Brief

NAME _____ DATE _____ PERIOD _____

Choose one fictional user

- ☐ Young child learning to brush
- ☐ Person with limited grip strength
- ☐ Student with braces

The user's main need: _____

Fixed design facts

- Soft bristles are the standard starting point for most users.
- The head needs to reach the tooth surfaces the user must clean.
- The handle needs to be comfortable and controllable for that user.
- A timer, grip texture, or visual cue can support the routine, but the feature must match the need.

Most important fact for my user: _____

Plan four parts

PART	MY CHOICE	HOW IT HELPS THE USER
Bristles		
Head		
Handle		
Added feature		

Draw and label the prototype

Done when

- ☐ I labeled bristles, head, handle, and one added feature.
- ☐ Each feature connects to the chosen user's need.
- ☐ My explanation uses one fixed design fact.
- ☐ I revised one label or explanation after feedback.
