Calibration notes

- Score the evidence, not accent, performance confidence, handwriting, hashtags, or English mechanics unless meaning is unclear.
- A student may use the private or written route and earn full credit.
- Do not require students to disclose personal assessment results, personal health information, or a public SMART goal.
- Xello platform completion is checked in the Completion Standards report. A paper reflection supports learning but does not replace the required save.
- If CareerOneStop is unavailable, score the fixed sample-skill fallback with the same transfer criterion.
