

Emerging IT Careers and Where to Find Them on BLS

NAME _____ DATE _____ PERIOD _____

Pick ONE career from this list. Open the BLS page named beside it and find two numbers: **Median Pay** and **Job Outlook**. Both sit near the top of every BLS page.

Some of these careers are so new that BLS has no page just for them. When that happens, the closest BLS page is listed instead. A career with no page of its own is proof the career is emerging, so write that on your research template.

The four careers marked ★ have a BLS page that matches them closely. Start there if you are not sure what to pick.

CAREER	BLS PAGE TO OPEN
AI Engineer	"Computer and Information Research Scientists." No AI Engineer page exists. Open bls.gov/ooh/computer-and-information-technology/home.htm and click that title.
Machine Learning Specialist	"Computer and Information Research Scientists." Same page as AI Engineer. No page of its own.
★ Cloud Architect	"Computer Network Architects" at bls.gov/ooh/computer-and-information-technology/computer-network-architects.htm
★ Cybersecurity Analyst	"Information Security Analysts" at bls.gov/ooh/computer-and-information-technology/information-security-analysts.htm
★ Data Scientist	"Data Scientists." Type Data Scientists into the search box at bls.gov/ooh . This one sits in the Math and Statistics group, not the IT group.
★ UX Designer	"Web Developers and Digital Designers" at bls.gov/ooh/computer-and-information-technology/web-developers.htm
Drone Software Developer	"Software Developers, Quality Assurance Analysts, and Testers" at bls.gov/ooh/computer-and-information-technology/software-developers.htm . No drone page exists.

Your other two sources. BLS is only source one. Source two is the Hats & Ladders app: open Hat Finder and search your career name. Source three is one web search for a DFW company that hires for this role. Try the career name plus "Dallas" or "jobs Irving Texas."

If a BLS page will not open, the page title is still the answer to write down. Tell your teacher which link failed and keep working from the Hats & Ladders app.
