

# Bootcamp Flyer Peer Feedback Slip

NAME \_\_\_\_\_ DATE \_\_\_\_\_ PERIOD \_\_\_\_\_

You are scoring a partner's Cybersecurity Bootcamp flyer. Read the whole flyer first. Write the note before you write the number.

Flyer designed by: \_\_\_\_\_

Their bootcamp is for (their audience): \_\_\_\_\_

## The Scale

This is the same four-level scale the workbook uses for the year-end Capstone.

**4 Excellent · 3 Good · 2 Okay · 1 Needs Improvement**

## Score the Flyer

| WHAT I AM LOOKING FOR                                                      | SCORE 1 TO 4 | ONE SPECIFIC NOTE. WHAT DID YOU SEE? |
|----------------------------------------------------------------------------|--------------|--------------------------------------|
| The flyer shows the designer understands what problem this bootcamp solves |              |                                      |
| The flyer gives the right information for the audience it names            |              |                                      |
| The flyer fits that audience's age and reading level                       |              |                                      |
| The flyer tells people how to sign up                                      |              |                                      |

A score with no note is not feedback. Every row needs words in the third column.

## Two Sentences Back to the Designer

The best thing about this flyer is

---

---

One thing I would change before this flyer goes on a real wall is

---

---

**Would I sign up for this bootcamp?** Circle one and tell why: **Yes / Not yet**

---
